

We support shops that promote My Bottle system and collecting used clothes, Water Supply Spots

Kyoto City promotes every citizen's "Action to Reduce Garbage" in daily life in order to change a lifestyle where disposing the used is taken for granted to the one where people reuse products with care.

As a part of the project, the City registers the shops that have adopted My Bottle system encouraging people to bring their own bottle to the shops and that collect used clothes as "Recommended Shops", and promotes them in the official websites etc.

In addition, the City promotes installation of "Water Supply Spots" in various facilities such as public.

Look for stickers!

Towards a lifestyle where people reuse products with care

By having My Bottle...

This will lead to the reduction of disposable plastics such as PET bottles.

Advantage 1, You can save money!

At many shops, you can receive a discount or additional services by bringing your own bottle or cup.

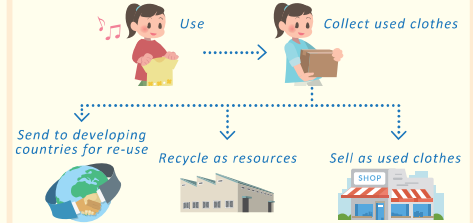

Advantage 2, You can drink anytime at your preferred temperature.

There are variety of My Bottles such as one made of stainless steel which keeps your drink hot or cold. You can drink anytime you wish.

Advantage 3, You can make your daily life comfortable!

You can enjoy special coffee of your choice at your workplace or you can bring your tea to school by using My Bottle.

By collecting used clothes

Notes upon using the map

Please note following services may vary from shop to shop. Please ask each shop for further details

- Regarding the cleaning of My Bottle (Equipment for washing bottles or cleaning services).
 - Discount by using My Bottle
 - Criteria on recyclable clothes (collection organized only for the clothes sold at the shops or for all clothes etc.)
- *Dirty or damaged clothes may not be collected for recycle.
